

Scene selection catalogue

Illustrative scene concepts / specification agreed individually

Bases, accessories and build choices

Source-to-order selection / 4 October 2026 / R02

How to use this catalogue

1. Choose a base

Browse by scene category. Record the Second Story Studio reference and any preferred variant. These permanent references help us identify the right starting point.

2. Choose the details

Use the accessory and modular references to describe equipment, surfaces, figures or scenery you would like to explore.

3. Agree your build level

The level describes the depth of personalisation. Your quotation sets the actual contents, base price and finished build cost.

4. Check the specification

Dimensions and features are recorded product evidence. We recheck scale, fit, availability, contents and power for the exact option before order.

Product photographs show supplier bases, not completed Second Story Modified commissions. Cars, figures, signage and equipment visible in an image are included only when your quotation says so.

All bases: Request a Quote. No stock or fixed selling price is implied.

Build levels and price scope

Essential - Personalised Display

From £20-£30 + base

Restrained personalisation with carefully chosen background detail.

Developed - Enhanced Story Scene

From £50 + base

A fuller scene with visible equipment and detail shaped around your story.

Showcase - Detailed Mini World

From £120 + base

Greater depth, richer detail and selected focal pieces.

Signature - Story Build

Request a Quote

A bespoke specification for a more involved personal or collection story.

Base: actual confirmed price. Vehicle: customer supplied or separately approved and funded.
Customer delivery: separate. Timing: confirmed in the quotation.

Chosen base + agreed personalisation + selected options = your defined build. We confirm the total before work starts.

Multi-storey Parking Structures

Second Story Studio

Ref. 01

Fast & Drift 3 magnetic two-level drift station

Scale 1:64 / Fast & Drift 3

Size: 350 x 260 x 155 mm

Accessory choices

Use the ACC references to tell us what you want to include. The exact product, finish and quantity depend on scale, fit and your agreed specification.

Background detail

Small tools, signs, tyres and everyday workshop items can make a setting convincing.

Visible equipment

Lifts, benches, cabinets and other equipment give the scene a clear purpose.

Focal pieces

A specialist machine or premium figure can become the centre of the scene. We select these where they contribute to your story.

There is no fixed accessory count. We agree the effect and the selected contents within your budget.

Accessory reference list

ACC-01 **Toolboxes, cabinets, benches, compressors, jacks and stands**
Workshop tools

Exact scale, fit and product confirmed with your quotation.

ACC-02 **Two/four-post lifts, cranes, tyre machines and workstations**
